PROJECTS

Personal Website (Latest version) (04/2023)
Redesigned my personal website with ReactJS and Tailwind CSS.

Personal Website (V1) (10/2022)
Designed and coded a personal website using self-taught HTML, CSS and JavaScript to showcase my skills, personal interests and projects. Developed a responsive design with custom animations and optimized performance for optimal user experience.

UNSW Dreams (02/2021 – 05/2021)
Team-based back-end development of a web-based messaging application for university students. Skills used include Python, Pytest, Git, SDLC planning, system design, requirements analysis and construction, deployment, team management and project planning.

SKILLS

HTML/CSS + Tailwind CSS	SQL	System Design
JavaScript/ReactJS	Git	Kubernetes (e.g. Docker/Rancher)
Python	Java	Agile sprint experience
